Description

Poster hanging rails in lightweight aluminium

Poster hangers with snap-on aluminum top and bottom bars also referred to as Poster Snaps, are perfect for the easy and hassle-free display of posters and banners in a variety of ways. Hang from ceilings, attach to walls, or use these hanging rails to create an attention-grabbing display in-store or in a window.

- Sold in sets, each comprising a silver-finish top and bottom poster hanger - great value for money!
- Also stocked in black
- Easy to assemble - no tools required
- These poster hanging rails securely grip paper, thin card or fabrics, vinyl banners etc.

- Available to suit all standard size posters - select set according to the width of your poster
- The PS.60.MAXI/P displays maxi posters in portrait or choose the PS.91.MAXI/L to present your print in landscape
- Excellent alternative to full frames and very easy to use and re-use time and time again

Each set of poster hanging rails contain hanging bars that pop open and snap shut to grip your poster or banner, sliding suspension eyes and end caps for a clean and tidy finish. The rails are lined with rubber to grip and protect your posters.

More Information

Use poster snap rails at work and home

Poster snap rails are incredibly popular in commercial environments and are becoming increasingly popular in the home too - and no wonder! They are great value, easy to use and can be hung from ceilings or walls.

Poster snaps are suitable for standard indoor applications and grip paper, thin card and banner material such as flexible vinyl, wallpaper and fabrics. The material being hung must be slightly pliable to enable the bars to grip - if you are looking to hang slippery material (for instance, gloss paper) simply insert some staples along the top and bottom edge to provide the required hold!

How to use your poster hanging rail

It's really easy to use your poster hanging rail. Pop the end caps of each bar and take out the plastic profiles. Clamp your posters together using the clips provided and slide back into the hanging bar. Pop the end caps back on and you're ready to go.

Commercial Applications

In commercial situations, Poster Snaps are generally hung from the ceiling using screw-in, clip-on or self-adhesive ceiling attachment fittings combined with fixed length or extending double-ended hooks or wires.

If the material to be hung is especially stiff or heavy (e.g. because the drop length of the banner is more than say 2m) consider using **Poster Clamps**.

Poster Snaps and Poster Clamps are not generally suitable for rigid panels such as foam PVC boards or substrates more than 0.5mm thick. If in doubt please test.

Product Dimensions

Dimensions of the available sizes are as follows:

Dimensions stated denote the external width of the poster snap and the physical width of the poster.

Product Code	Poster Size	External Length	Suitable for
PS.21	210mm	216mm	A4 Portrait
