### A1 Information display board with or without wheels

Display your messages clearly using our double-sided information display board. With its snap-open-and-closed poster frames, the 'Infoboard' is simple to use and has proved very popular as a display option in reception and entrance areas, colleges, universities, train and coach stations, and airports. At 6ft tall, the Infoboard stands out and makes a great impact.

- The Infoboard consists of two A1 sized snap frames mounted back-to-back on an aluminium frame supported by two legs
- Anti-glare poster covers are included
- Wide frame provides excellent stability
- 2 A1 poster snap frames make changing your messages quick and easy
- Wheeled version and optional literature shelf available
- Snap frames and support framework both have rounded chrome corners that look good and provide an additional level of safety.

## **Where would I use the A1 Info Board?**

The Infoboard A1 stand is a common feature in many of the UK's train stations and airports where a service update sign is needed. The double-sided snap frames allow you to quickly change posters and add handwritten service announcements on a piece of A1 cut sheet paper.

## **I want to move my A1 Info Board regularly**

We have a new version of the A1 poster Info Board that has wheels making the poster stand easy to position and move to a new location.

More Information	<h2>Infoboard - a great looking and easy-to-use information display board</h2> <p>The Infoboard can be used as a permanent or moveable sign. Posters are easily changed with snap-open frames (sometimes called clip frames or grip frames). These poster display stands UK and Ireland are supplied from stock.</p>
