Description

Acrylic menu sign holders with curved metal base

Desk Menu is a two-part table menu holder featuring a clear acrylic pocket fitted into a gently curved metal base. The look is classy and modern - ideal for reception desks, wine bars, restaurant tables, furniture retailers and many other situations.

A number of sizes are available - this section deals with A6 and A5 menu holders and DL size referred to as 1/3rd A4 as the paper is the size of a standard A4 sheet folded in three.

- The curved-shape base is made from silver anodised aluminium and very stable.
- An ingenious spring action built into the base allows the acrylic part to be inserted and held firmly.
- A5 menus, DL size flyers etc can be inserted and exchanged easily. Suitable for both single-sided and double-sided use. Currently only stocked in portrait style (other versions and branded base options available subject to MOQ's).

Additional Information

Wrong size? Click here for [A4 Menu Holders](#) in this style.

A5 Desk Menu suits A5 size paper and can be used double-sided, either with two A5 sheets inserted back-to-back or for displaying a double-sided A5 menu in portrait configuration.

1/3A4 Desk Menu suits one third A4 size paper, which is also known as DL size, in portrait configuration.

New A6 Desk Menu has been introduced. This takes paper size 105 x 148mm, approx 4" x 6".

The acrylic pocket is rigid and perfectly clear. It is supplied covered in a protective film which needs to be peeled off and discarded before use.

The aluminium base is the full width of the acrylic poster pocket - i.e. 148mm in the case of the A5 portrait version and 100mm in the case of the 1/3rd A4 version. The spring action comes from concealed spring steel clips located within the base. The spring action is strong and requires firm hand pressure to open up the gap to insert the acrylic. So it won't become dislodged in normal use - yet the graphic can easily be exchanged by someone familiar with the mechanism.

Desk Menu is a significantly cheaper product than our Desk Presenter yet the quality and functionality is almost as good. So while it is an economical alternative the Desk Menu will not look out of place in a smart bar or five star hotel reception desk.
