Description

Plastic sign holders for tables – great for POS display!

If you're looking for a neat way to display your POS, menus or notices, we've got these excellent value plastic sign holders for tables in a great range of colours and sizes!

Each A4 plastic frame has a slot in the top to insert your menu or notice. These angled POS stands are supplied with angled clear plastic feet – allowing portrait or landscape display and come with a poster protector included.

- Angled print display stands for tables and counters
- Compared with acrylic print holders these menu display holders are virtually unbreakable
- Frames with angled feet are for single-sided display. The set includes one poster cover sheet (clear plastic)

with an anti-glare finish) to insert in front of your print. Choose the frame colour from the drop-down list.

- A4 sets are available in many colours. A5 and A3 sets are available in a more restricted colour range - but you can also buy the individual components to make up your own combinations.
- These plastic sign holders for tables have proved particularly popular in garden centres

If you plan to use these menu display holders in a humid area or outdoors, you should encapsulate your print using a laminator instead of using the plastic cover sheet which will only offer protection against dirt and finger marks. The laminated paper will still fit in the frame as they are oversized to allow for the extra border.

Additional Information

More Information	<p>Using laminated paper prints? Slim frames also suit paper notices encapsulated in a laminating pouch. In this case it is not necessary to purchase poster cover sheets which are included in this set. So it is more economical to order the frames and feet separately.</p> <p>Click on these links: A4 Slim Frames. Angled snap-on feet.</p>
