Revolving leaflet stand with 20 magazine pockets

Revolving leaflet stands have a huge brochure capacity yet they are easy to browse thanks to the carousel stand. This floor-standing rotating catalogue stand has five tiers of brochure dispensers displayed on each of the four faces.

The smart black framework is supported on a star-shaped pedestal base which sits directly on the floor (without castors). There is a robust revolving bearing between the base and the pole to allow the stand to spin or rotate when turned around by the customer. The black finish to the stand looks smart and modern with high-quality clip-on leaflet dispensers.
