Description

Double ended poster hanging hooks – Double hook suspension wire

Instore marketing and visual merchandisers have for a long time utilised their ceiling spaces to hang promotional signs in what would be otherwise unused retail space, now you can also use the ceiling space to hang directional, information and promotion signage to enhance your environment be it an education facility or public building.

Hanging wire hooks that are precision made ensuring equal length hooks for your POS or information posters to hang neatly and correctly, the ends are formed into hooks that can hold up to a maximum of 3kg when used in pairs. Each size is available from stock in handy to use bulk packs of 100 pieces. The C hook is used either as a joiner to hang multiple signs or to hang your sign close to the ceiling.

- 2mm thick suspension wire hanging hooks
- For use with either suspended ceiling clips or adhesive ceiling buttons
- Up to 3Kg capacity

What lengths do the double ended hanging hooks come in?

Each wire is precision formed to give an accurate length every time the sizes stocked are :

- DH.4 – 4 Inches or 10 centimetres
- DH.6 – 6 Inches or 15 centimetres
- DH.8 – 8 inches or 20 centimetres
- DH.12 – 12 inches or 30 centimetres
- HZY.C approx 1 inch or 2.5 centimetres

Do you have a longer double hook than 30cm?

We only supply double hooks up to 30 centimetres in length if you need a drop of more than this we recommend using a hanging wire to suspend your signage. Please click the link to [hanging wire systems](#)
