Description

Folded PVC pocket - A4 U-pocket

U-pockets are made from folded clear PVC to protect your A5 printed POS from dust and finger marks.

- PVC U-pockets help support your paper insert within an A5 slot-in frame to prevent it from sagging or crinkling.
- The clear plastic sleeve has an anti-glare finish. So unlike glossy plastic sleeves there are no distracting reflections from store lighting.
- A U-pocket will not protect paper inserts from rain or humidity. For that you need to laminate your POS and also use a Slim Frame which is oversized to accept laminated A5 prints.

More Information	<ul style="list-style-type: none">• U-pockets are made from thin PVC sheet, usually 200 to 400 micron thick.• These folded plastic pockets should only be used in conjunction with a POS frame.• They are not suitable for outdoor use as they do not seal the paper from ingress of water.• Sometimes U-pockets are called poster protectors, but we prefer to use that term for single-layer clear plastic sheets, as opposed to these double-layer pockets made with a fold.
Delivery and Returns	<ul style="list-style-type: none">• We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.• Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.• For detailed information about Delivery charges or Returns and refund policies, please click on the links below.
