Description

Wall-mounted wood-framed board

Wall boards framed in natural beech can be used as wall-mounted chalkboards or they can have a printed graphic applied. Framed wall boards are popular and practical in any number of environments from restaurants and public spaces to the home. They also make an ideal basis for an economical honours board – for example in a sports club.

Using a wall-mounted framed chalkboard is the perfect way to promote your products, especially in hospitality where offers can change on a daily basis. Our beechwood framed chalkboards are easy to use and look fantastic.

- No need to print paper notices with a wall-mounted chalkboard!
- The beechwood frame looks great in all settings
- Suitable for use with liquid chalk pens
- The chalkboard surface is easy to wipe clean
- All fittings for attaching to your wall are included
- These chalkboards are pre-drilled for landscape or portrait hanging

Note that any applied graphics are not included in the price and must be sourced separately (normally from a sign company or printer) as we are not able to offer custom graphics.

Chalkboard designs

Run out of ideas for your chalkboard design? Not quite sure how to make the best of your chalkboard and create a big impact? Check out the Sign-Holders Pinterest board for some of our favorites out there:
