## Description

---

### Double Royal size A-board for rail operators

The new addition to our range of pavement signs is the Double Royal size A Board. Designed to create an impact in big spaces and be seen from afar or whilst on the move, this printing size has been used almost exclusively by underground and railway companies for the past 100 years but is now increasingly popular with entertainment venues and outdoor retail settings.

- Double Royal poster size is 40 inches high x 25 inches wide (1016 mm x 635 mm).
- Designed for railway and transport hub platforms and concourses
- Also perfect for large hospitality and entertainment venues
- Excellent for eye-catching promotions in outdoor retail centres
- Quick and easy poster change
- Poster protectors included
- Robust pavement sign for heavy footfall areas

The Double Royal poster size A Board is a factory special order product with a lead-time of about four to five weeks. We do, however, keep a small sample quantity in stock. The stock colour is anodized silver but for a quantity of 50 pieces or more, any standard RAL colour can be produced in a durable powder-coated paint finish.

### **Other products in the Double royal poster size.**

- Lockable Poster cases for wall-mounted information.
- Waterproof lockable snap frames for use in high-traffic areas
- Poster stands with heavy water base for ticket halls and platforms

More Information	<h3>A board sign double royal</h3> <p>Pavement signs have long been used as a good value promotional tool in large indoor or outdoor spaces. The Double Royal A board pavement sign has been designed as part of a new range of products aimed at the transport industry, where being seen from distance and/or whilst on the move is a particular issue. This is a sizeable and robust sign holder that will cope well in heavy footfall areas and provides the print space to ensure that font sizes for communicating information can meet signage service level agreements.</p>
Product Dimensions	<h3>Double Royal size</h3> <p>Closed height = 1195mm Open height = 1050mm Width = 675mm Poster frame = 1016mm x 635mm (40 inches high x 25 inches wide) Please note that this makes the A board a substantial piece of equipment!</p>
