Description

Double Royal poster stands for ticket halls and platforms.

This eye-catching double royal poster stand is perfect for use in ticket halls, rail platforms, public concourses and departure lounges. Designed to withstand the heavy footfall of today's mass transportation systems, the double royal information display stand is a substantial poster stand but is easy to use with its snap-open-and-shut poster frame and incorporated wheels for positioning.

- Waterproof double-sided snap action poster holders for double royal size posters (40"x25")
- Double royal paper size is 40 inches x 25 inches wide (1016mm x 635mm)
- Robust powder-coated frame to give height and stature to the poster holder
- Heavy water fill base - 14kg dry and 40kg full
- Stable and heavy but easy to move with the base filled with a separate trolley tool
- Extra heavy-duty hinged poster covers included

The double royal poster stand is part of our range designed specifically for the rail industry however its size and quality make this an excellent poster stand for outside advertising and promotions in any large public space.

Additional Information

<p>More Information</p>	<h3>Double royal poster frame</h3> <p>Double royal is the preferred print size for rail and has been used by London Underground since 1908. It is becoming increasingly popular in a range of settings from retail to entertainment and hospitality due to its ability to be seen and create a quick but lasting impression. Our double royal poster frame and stand has been designed in partnership with a UK rail company to ensure it meets the needs of busy, modern rail hubs. It is a sizeable and robust piece of equipment that will not be knocked over in heavy footfall areas. The size of the frame ensures that your information display will be seen from afar and by people on the move.</p>
<p>Product Dimensions</p>	<p>Double Royal poster size = 40 inches by 25 inches (1016mm x 635mm) Height = 71 inches (1803mm) Width = 31.6 inches (802mm) Depth = 25 inches (635mm) Base to bottom of frame = 27.5 inches (698.5mm)</p>
