

## Notice Boards with magnetic panels

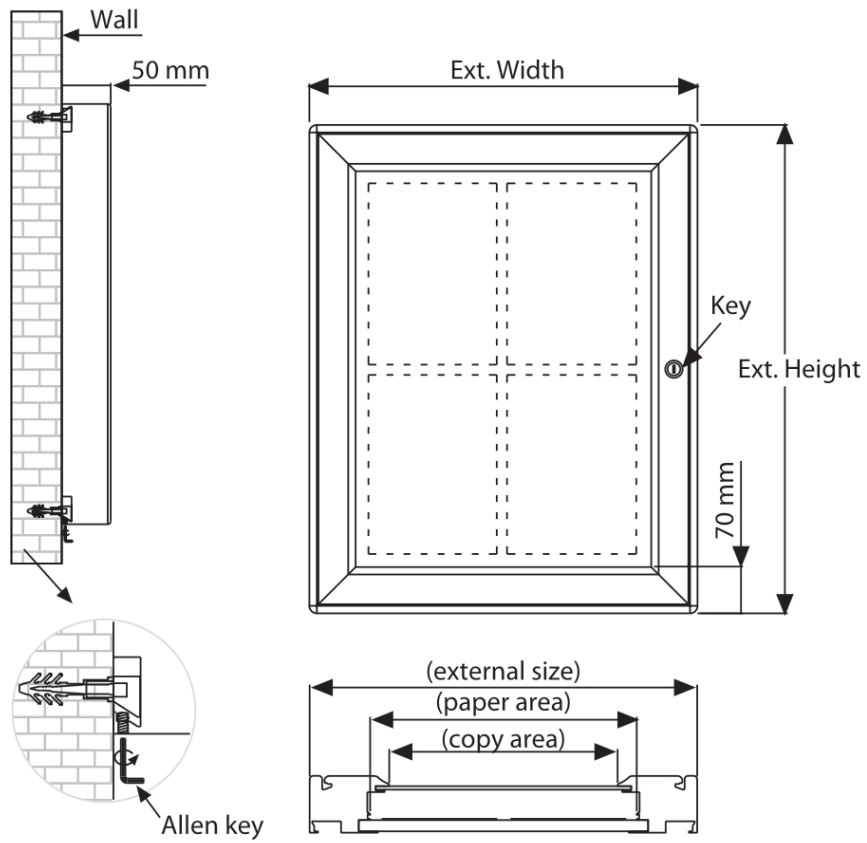

### Short Description

- Outdoor notice board with weather-seal and locking door
- Notices are secured using supplied magnets
- Robust design for wall mounting outdoors or inside

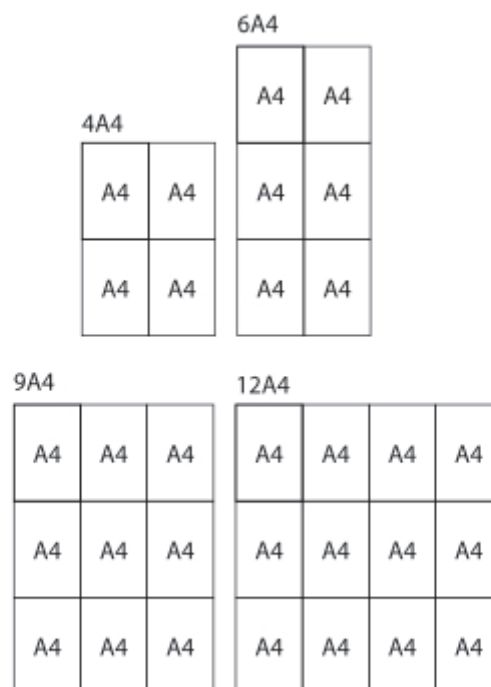

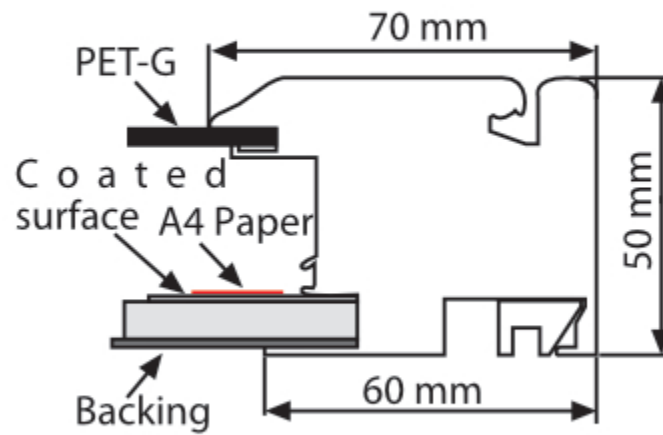

### Product Images

## Magnetic

### Magnetic notice boards – waterproof exterior grade

These external magnetic notice boards have a coated steel back-board supplied with magnetic discs used to secure notices.

The door closes against a weather seal to protect notices from the elements.

Lockable magnetic noticeboards are suitable for wall-mounting indoors or outside.

- Sturdy design with a durable anodised aluminium finish, this exterior grade noticeboard has a hinged locking door glazed with shatterproof polycarbonate. Unlike glass, it won't shatter.
- The 50mm deep aluminium frame has a sealing gasket built into the hinged door, rendering the noticeboard waterproof.
- The back panel is white-coated galvanised steel so will work with all types of magnetic fixings. Easy to maintain surface with nothing to rot or discolour.
- Supplied with a set of magnetic 'pins' for holding notices in place.
- The available sizes are defined by the number of A4 pages which can be displayed.
- Can be mounted with the door at the side or rotated so the door is hinged at the top. Note that integral struts can be used to hold the door open when the door hinge is positioned at the top.

### More Information

#### **Exterior grade notice board intended for fixing to any wall - supplied with two mounting rails.**

First the mounting rails are fixed to the wall. The notice board is then securely hung on the rails - without requiring any fixing holes through the notice board itself. Two grub screws beneath the notice board prevent unwanted removal.

#### **Applications:**

These magnetic whiteboard notice boards are suitable for interior or exterior use. Note that as with any noticeboard condensation can occur from time to time. They are supplied with a starter set of magnets for fixing notices without the need for drawing pins.

They are lockable but the keys are all the same so one key will open a number of notice boards on site. This is a convenient feature for supervisory staff.

The Series 50 noticeboard can be used as:

Church notice boards

Hospital notice board

School notice board

Notice boards in foyers

Board for staff notices

Student's Union Notices

Health and safety notices and posters

Wanted and for sale boards etc.

#### **Post Fixing Ideas**

Currently we don't offer posts to suit Series 50 Magnetic notice boards.

However some customers have provided their own timber posts with a backing-board made from marine ply or similar.

Our magnetic noticeboards can be attached to this backing-board in the same way as they are designed to be fixed to a wall, using the two concealed mounting rails screwed to the backing-board. The noticeboard is 'suspended' on the top rail and 'nipped up tight' onto the bottom rail (from beneath using two grub screws provided).

Please Note:

The mounting rails are not suitable for spanning the gap between the posts without using the backing-board described above.

We don't advise drilling through the back of our noticeboards to fix them directly to the posts as the holes created can compromise weather-tightness of the notice board (unless sealed carefully e.g. with silicone sealant).

**DIMENSIONS of the available sizes are as follows:**  
 Dimensions are stated as Width x Height when the door is side hung.  
 (If installed with the door top hung the first stated dimension becomes the height).

	Product Code	Paper Area	Copy Size	External Size	External Size (Inches)
Product Dimensions	MNB.4A4	483 X 653mm	450 X 620mm	590 X 760mm	23 X 30 in
	MNB.6A4	483 X 973mm	450 X 940mm	590 X 1080mm	23 X 43in
	MNB.9A4	713 X 973mm	680mm X 940mm	820 X 1080mm	32 X 43in
	MNB.12A4	943 X 973mm	910 X 940mm	1050 X 1080mm	41 X 43in
