Description

Tamper proof snap frames

A4 and A2 sizes offer a great way to prevent people from interfering with your signs and notices. Manufactured from 25mm wide secure profile with a tamper-resistant design which cannot easily be opened without the special lever tool.

- Anodised Aluminium finish, complete with poster protector, tamper-resistant design offering protection against theft and interference.
- Tamper-proof frames require a lever tool to open the frame as otherwise, the profile makes it almost impossible to open the frame.

- Tamperproof snap frames are technically 'tamper resistant' and cheaper than the alternative [Lockable Snap Frames](#) or [Poster Cases](#) (with a hinged locking door) which may also be considered if the budget will permit.

Secure snap frames are ideal for displaying advertising in locations such as nightclub toilets where there is a higher risk of vandalism. The usual finger-tip recess found on typical snap frames is omitted and extra springs are fitted making secure snap frames very hard to open up the frame, even with determination and strong fingernails.

Evacuation plan sign holders - wall mounted

Many businesses now have their evacuation plans and maps clearly mounted on the walls of their buildings. Most have their plans professionally designed and printed and displayed with the sign-holders secure snap frames to prevent people tampering with or even removing these special safety signs.

Choose from the ever-popular A4 and A2 evac sign holders in stock and ready to ship for next day delivery.

Lever tools to be ordered separately. These are supplied as a plastic lever tool or metal lever tool depending on availability. Both work equally well.

A4 Tamperproof snap frames,

A2 Secure snap frames are all now **ON SALE at up to 50% OFF.**

More Information

Secure or tamper proof snap frames offer a low-cost vandal resistant solution to displaying posters in public areas. The secure frame, a.k.a. security snap frame or tamper resist snap frame, offer snap action poster change convenience with restricted access to non-authorised users.

Opening secure snap frames without a lever tool is hard and will prevent casual tampering. You may also wish to consider our [lockable snap frames](#) and [lockable poster cases](#) as alternatives, especially for larger sizes which we do not stock in the secure version.

These secure frames can be used outside but they are not 100% waterproof. If long term notices are to be displayed outdoors there are two security options. The first is to print signs on waterproof paper. The second option is to use a [waterproof lockable snap frame](#).

Consider if you need a tamper-proof poster frame. The type of posters which are especially vulnerable is desirable trophy items - for example, posters advertising bands, cult events or containing pictures of teen pin-ups.

Product Dimensions

Size Information for aluminium snap frames(Secure)

- The width of the surround is 2.5cm = 25mm or 1 inch
- Front to back depth of 25mm profile snap frame: 12mm (approx 1/2 inch)
- A4 relates to the size of paper an A4 frame will fit.
- A narrow strip around the edge of your print is hidden when the frame is closed.

Visible poster size: 22mm less than actual poster (i.e. 11mm all round your poster is hidden by the frame surround)

- The overall size of the frame is larger than the paper inserted.

Overall (external) frame sizes are shown in the table:

Table of standard snap frame sizes - relates to 25mm wide profile frames

Order Code	Poster size	External size	Visible area
AS.A5/25S	148X210	177X239	126X188
AS.A4/25S	210X297	239X326	188X275
AS.A3/25S	297X420	326X449	275X398
AS.A2/25S	420X594	449X623	398X572

Assembly and Installation

Fix snap frames using screws

- The best way to permanently fix snap frame is with screws.
- Screws and plastic wall plugs are included with every snap frame we supply
- The wall plugs are for use with masonry walls such as brick and most plastered walls
- When screwing onto wood the plugs are not needed
- A power drill and screwdriver are required for screw fixing (and we recommend using a spirit level and tape measure to ensure the frames are properly aligned). If in doubt please consult a proficient DIY or trades person.

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
