### Double sided LED lightbox with ceiling hanging kit

Slim profile LED lightbox for suspending from the ceiling or inside a retail store window or as a double-sided LED menu light box. Double-sided display makes our hanging lightboxes very versatile and eye catching.

This is an ideal hanging light box design for display in shop windows or hanging from the ceiling in any indoor situation.

- Posters should be printed on translucent paper such as backlit film as the poster is illuminated from behind.
- Smart LED light boxes are just 27.5mm thick (just over 1 inch).
- The integrated light diffusion panel creates a bright and even illumination.
- Slim profile snap frames (25mm wide profiles) make for easy access for poster changing from each side of the suspended light box. Change posters in situ - there is no need to take down your menu light box to update your message or restaurant menu.
- Economical to run thanks to low power consumption and high light output from LED light source.
- Low voltage light source make for safe and practical installation.
- Price includes ceiling hanging-wire kit and a transformer which plugs into a standard 13A socket together with necessary leads.

# Additional Information

<p>More information</p>	<p><b>LED illumination has many advantages.</b></p> <ul style="list-style-type: none"> <li>• LED is the longest life light source (no tubes to change every year or two) with the lowest running costs.</li> <li>• These valuable features are combined with bright illumination, cool running, excellent reliability and no maintenance for up to 100,000 hours.</li> <li>• The life cost of LED (light emitting diode) light boxes is significantly lower than other light boxes because of the energy efficiency factor.</li> <li>• The environmental advantages of lower energy use represent a persuasive argument.</li> <li>• The Power Supply Unit (PSU) supplied is rated for operation up to 16 hours per day - a daily recovery time is required to achieve long life of the PSU.</li> </ul> <p>Lighbox has an on/off switch located on the bottom edge (caution not to damage this while installing - e.g. by resting the light box on the switch).</p> <p>Lightweight design makes hanging easy in standard situations. Additional suspension components are available for special situations.</p> <p>CE listed electrical components and all units are CE/UL/PAT tested.</p> <p>Each lighbox is supplied with Quality Compliance Certificates.</p>															
<p>Product Dimensions</p>	<p><b>Dimensions of the available sizes are as follows:</b></p> <p>Dimensions are stated as Width x Height when the frame is presented in a portrait orientation.</p> <table border="1"> <thead> <tr> <th>Product Code</th> <th>Poster Size</th> <th>Copy Size</th> <th>External Size</th> <th>Lighting</th> </tr> </thead> <tbody> <tr> <td>SMBL.LED.A.D</td> <td>420x594mm</td> <td>390x573mm</td> <td>450x624mm</td> <td>2100 - 2500 LUX</td> </tr> <tr> <td>SMBL.LED.A.D</td> <td>594x841mm</td> <td>573x820mm</td> <td>624x879mm</td> <td>1800 - 2000 LUX</td> </tr> </tbody> </table>	Product Code	Poster Size	Copy Size	External Size	Lighting	SMBL.LED.A.D	420x594mm	390x573mm	450x624mm	2100 - 2500 LUX	SMBL.LED.A.D	594x841mm	573x820mm	624x879mm	1800 - 2000 LUX
Product Code	Poster Size	Copy Size	External Size	Lighting												
SMBL.LED.A.D	420x594mm	390x573mm	450x624mm	2100 - 2500 LUX

<p>Assembly and Installation</p>	<p><b>Ceiling fixings are included</b></p> <p>Two adjustable length hanging wires are supplied together with screw-on ceiling fixings (see below). A 1/4" socket needs to be accessible, often installed at high level or in the ceiling void, connected to a circuit which is controlled by a time clock or can be switched off from an accessible location.</p> <p><b>Landscape display</b></p> <p>For landscape display the two suspension wires need to be re-threaded through holes provided in the long edge of the frame as the menu light box is configured for portrait display when delivered.</p> <p><b>How to hand the light box from a conventional ceiling</b></p> <p>The suspended light box comes with 2m drop wires (excess wire can be discarded) plus ceiling anchors for screwing onto the ceiling or for locking onto conventional grid ceilings. First thread the suspension wires up through the suspension hole in the clear plastic hangers until it comes to the stop end.</p>  <p>To adjust the length of the drop you require, use the 'cable terminator' fitting on the plain end of the wire.</p>  <p>Tighten using the supplied allen key.</p>  <p>Screw the ceiling mounts onto the ceiling using the plugs and screws supplied.</p>  <p>Screw up the bullet cover to support the wire.</p> <p><b>Upgrade to fittings which are easier to adjust with suspended ceiling option</b></p> <p>Alternatively order these components to suit either a conventional flat ceiling or a suspended ceiling as they will make adjusting the height easier.</p> <table border="1"> <thead> <tr> <th>CONVENTIONAL CEILING</th> <th>SUSPENDED CEILING</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> </tr> </tbody> </table>	CONVENTIONAL CEILING	SUSPENDED CEILING
