Wardup To All my Fans!!

This pass year has been filled
with some amazing experiences from
American Idol, to releasing my album
"Just Like You", to just getting off the
Calamity tour with my heroes...
Ashton Lamberti! I had so much fun
being on the road with him and my
band... it was unforgettable!

Just wanted to be sure to thank
you all for your love and support, and I
appreciate all that you have done for
me. I am super excited for the next
chapter of my career and can't wait
to share it with you all!!
Check out my Facebook page...
(www.facebook.com/allisonlamberti)
for more exciting news... always!!

To Be Continued...

Love,
Allison Lamberti

Description

Paper rail hanging system

Multi-use paper hanging system serving equally well as a tab grabber kitchen order holder or paper display gripper rail in a school classroom or office wall. Fast Note is a versatile paper display rail is available in 4 sizes. Fast Note is simple to fix using either the strong pre-applied adhesive strips on the back of the rail or with concealed screw fixings. Both options are included with every Fast Note paper grip rail.

Our paper rail hanging system is made from smart silver aluminium with neat black end caps. The wall hanging system incorporates small internal plastic rollers which grip any thickness of paper. The paper can also be removed easily.

Note grabber for kitchen orders

Fast Note is popular in restaurant kitchens for holding kitchen orders. In the hospitality industry this type of wall mounted paper rail is known as a note grabber or restaurant tab grabber. A kitchen tab grabber is often used to display hand-written orders taken by serving staff. The paper used is generally quite small and flimsy. Our kitchen order ticket holder holds these securely yet they are easy to remove by lifting the paper up and away (as shown in the video on this page). The grab rollers prevent sideways movement of paper inserts.

Paper display rail for school or office

The larger sizes of Fast Note paper gripper rail can easily cope with classroom posters, art exhibition artwork, flip chart paper sheets and so forth. This paper hanging system is especially useful in primary schools for displaying paintings – effortless and quick to use. No more messy blue tack and sellotape.

Paper rail hanging systems are also great in the office training room stuck to the wall or positioned on the office wall or partition. Simply pop in your reminders, notes and reference documents. They are firmly held and easy to view – yet can be removed from the rail easily. Smaller sizes can also be used as a door message holder. Primarily intended for holding single sheets, the roller grippers can normally cope with a few overlapping sheets of paper.

Wall info rail main features

- Quick and easy to insert documents, pictures or table orders.
- Use next to the office door or desk as a note or message holder.
- Display charts, drawings and plans in the conference room.
- Holds artwork, maps or printouts in the classroom.
- Wipe clean aluminium design. Durable and reliable performance.
- Screw holes are hidden behind slide-along end caps – or simply stick to the wall.
- All sizes of Fast Note are self-stick as they come with strong adhesive tape pre-applied to rear – simply peel off the protective film and press the rail firmly to the wall (or other suitable surface).
- Suitable for use of Posters/paper thickness minimum 0.1mm – maximum 0.8mm thick.

Four different widths of Fast Note are stocked.

31cm (12") 50cm (20") 100cm (40") 150cm (59")

Note: Overall sizes are 25mm (1") wider than the above paper insert sizes.

More Information

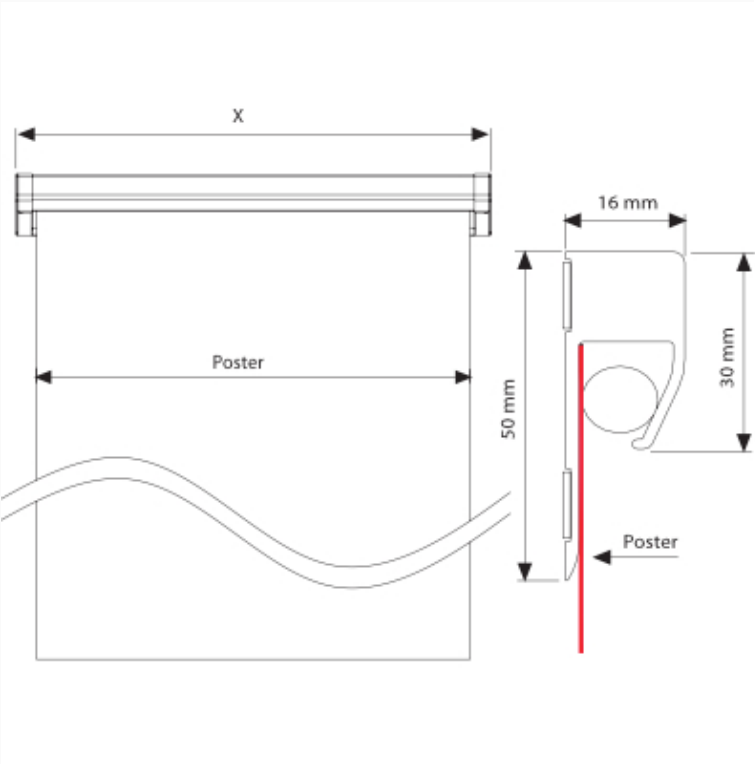

HOW THE GRIP RAIL WORKS

Individual pieces of paper can be inserted or removed as required making this a quick and convenient wall display document holder or ticket holder. Well made and practical, the aluminium rail incorporates and conceals mini rollers which instantly grip any sheets you insert. To remove simply lift up and away - this action releases the grip of the individual rollers holding that particular sheet, while adjacent sheets remain secured in place.

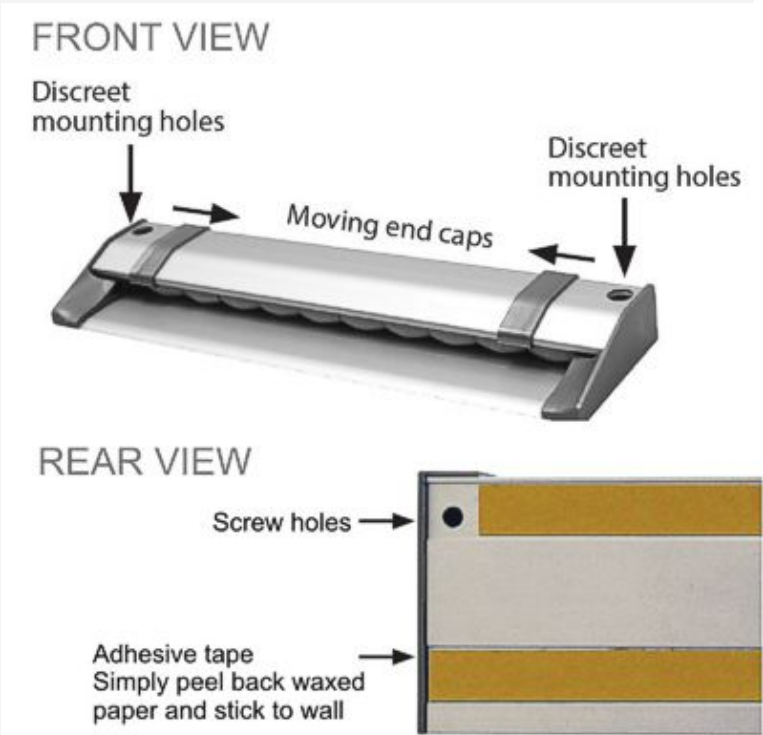

As well as holding paper and thin card the document grip rail will hold laminated maps, architectural plans, large engineering drawings etc.

Product Code	Product Name	External(X)	Maximum Poster Width
FN.30	310 mm Fast Note Ticket Holder	335 mm	310 mm
FN.50	500 mmm Fast Note Ticket Holder	525 mm	500 mm
FN.100	1000 mm Fast Note Ticket Holder	1025 mm	1000 mm
FN.150	1500mm Fast Note Ticket Holder	1525 mm	1500 mm

Product Dimensions

TWO-WAY FIXING

Assembly and Installation

To fix the document grip rail to the wall you can either screw or stick. Screws and wall plugs are provided – you will need a handyman with a drill to screw to a plastered wall. A particular advantage of our design is that the screw holes are completely covered and the screw heads are invisible – thanks to the slide along screw covers.

Alternatively remove the waxed protective paper from the self-adhesive strips pre-fitted along the back of the ticket holder rail. Apply direct to any suitable wall – ensuring the wall is clean and smooth to achieve a good grip. Make sure you apply the rail level and use pressure to achieve a good bond.
(Use of a spirit level will assist or carefully measure both ends of the rail either 'up from the floor' or 'down from the ceiling').

Delivery and Returns

The two smallest sizes of Fast Note FN.30 and FN.50 are eligible for reduced cost delivery by post.
Note that the FN.150 rail is classed as an oversize item and delivery restrictions or surcharges may apply for deliveries outside UK Zone 1. This will not affect the majority of our UK customers.

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
