

Flip poster display stand

Short Description

- Poster display stand with 5 A4 pockets
- Checkout barcode scanner book stand

Product Images

Checkout stand with A4 poster frames

Flip poster display stands on a table or counter to provide a swing panel poster display for A4 sheets at eye level.

The Infoline freestanding poster flip display raises the poster rack up to a convenient height for retail checkouts or information counters. Five hinged A4 holders can each be used double-sided. This allows viewing of up to 10 pages of information, e.g. bar codes for heavy items at checkouts – to avoid having to lift them out from the shopping trolley.

- Flip poster display stand is offered in a choice of colours. Each frame comes with a transparent plastic sleeve.
- Multi-colour frames assist with rapid finding of the correct item – acts as a colour coding system.
- Single colour sets are also available, all white as standard (other single colours to order – please call to check stocks).
- The metal base plate can be used free-standing or screwed onto a counter-top or workbench to increase stability (2 fixing hole are provided).
- The metal rod lifts the flip rack to a convenient reading height, keeping the counter or bench clear. The angle of the A4 rack can be adjusted as required.
